

GEZE TS 1000 C

Link arm door closer for single-leaf doors with a leaf width of up to 950 mm

The overhead door closer is suitable for single-leaf doors with a leaf width of up to 950 mm. The closing speed and hydraulic latching action can be adjusted. There are two different closing force settings, which can be selected simply by turning the bearing block for the link arm: 'Weak' closing force (size 2 acc. to EN 1154) for door leaf widths of up to 850 mm and "strong" closing force (size 3 acc. to EN 1154) for door leaf widths of up to 950 mm. The door closer is available with an optional mounting plate. This makes it suitable for left and right single-action doors without the need for conversion.

Special version:

- GEZE TS 1000 C with hold-open linkage featuring adjustable hold-open angle of between 70° and 150°

GEZE TS 1000 C

Application range

- For internal doors
- For single-action doors, leaf width of up to 950 mm
- Compatible with left-hand and right-hand doors without the need for conversion
- Standard mounting on door leaf, hinge side; transom mounting on opposite hinge side also possible
